

Position

Production Supervisor – 1st Shift

Location

Dayton Rogers of Ohio

Description

Dayton Rogers of Ohio is seeking an experienced Production Supervisor to oversee our organization's production operations. The ideal candidate will be highly organized and able to lead employees to meet customer expectations for quality cost and delivery, while maintaining a safe and collaborative work environment.

Qualifications

- The ideal candidate should have 4 year degree in Mechanical Engineering or demonstrated experience in a related field with a minimum of 3 years work related experience of production planning, supervising and management in manufacturing environment.
- Knowledge of business and management principles involved in resource allocation, production methods, and coordination of people and resources.
- Knowledge of principles and processes for providing customer and personal services. This includes customer needs assessment, meeting quality standards for services and evaluation of customer satisfaction.
- Knowledge of raw materials, production processes, quality control costs and other techniques for maximizing the effective manufacture and distribution of goods.
- Knowledge of arithmetic and basic geometry.
- Time Management —managing one's own time and the time of others.
- Complex Problem Solving —Identifying complex problems and reviewing related information to develop and evaluate options and implement solutions
- Judgment and Decision Making —Considering the relative costs and benefits of potential actions to choose the most appropriate one.
- Management of Personnel Resources —Motivating, developing, and directing people as they work, identifying the best people for the job.
- Monitoring —Monitoring/Assessing performance of yourself, other individuals, or organizations to make improvements or take corrective action.
